## ***RIVERMEAD RESIDENTS ASSOCIATION***

Dear resident,

Following the recent meeting at The Beeches, it was agreed by those present that Data Contracts Specialist Maintenance was the preferred choice of contractor for the second phase of the works to Yale and Princeton House. After subsequent further research, it appears that DCSM misled the residents into believing that they were completely different organisation to the one of a similar name which carried out the works over ten years ago. We have discovered that they were one and the same – full details of which are available on the website which we would urge you to look at if you have internet access. ([www.rivermead-ra.org.uk/page4.html](http://www.rivermead-ra.org.uk/page4.html)) In conclusion, the committee will be contacting Freshwater today to put forward CRL as our preferred contractor and to proceed with the works as soon as possible. We will also be contacting CRL directly to arrange a more effective system for reporting and resolving any potential complaints.

Kind regards –

The Rivermead Residents Association
