- **PA to contact Freshwater again regarding the unfinished/poor quality work to the communal areas. The Residents have expressed a strong desire for the work to be finally finished and to a decent standard. The point was made that Freshwater were strongly defended by the residents when there was an attempt by another company to take over the management of the site. It was hoped that we would not begin to regret this.**
- **CG raised the on-going problems with activity on the Trent Social Club car park, causing noise and other disturbance. CG and MA, who both overlook the site, have contacted the Rushcliffe Planning Dept.to object again to the application to store more cars on the site. It was discussed whether Freshwater could be persuaded to write to Rushcliffe in support.**
